THE COMMISSION IN MINISTRY WITH PERSONS WITH DISABILITIES

Every church can expect to have members and guests with disabilities. As people of the United Methodist Church, we strive to have open hearts, open minds, and open doors — and attention to the accessibility of our buildings is one important aspect of this outreach.

The Commission in Ministry with Persons with Disabilities works with congregations to remove barriers that limit participation. They provide consultation for churches to review ramps, parking spaces, restrooms, and other structures.

An Accessibility Audit is available from the commission for use by all churches regardless of size to assist them in evaluating their buildings. The commission also helps churches comply with the Americans with Disabilities Act when their facilities are used for public events and activities.

Even though few churches will be able to eliminate all barriers, every church is encouraged to develop an accessibility plan.

The commission is funded with apportionment dollars given by local churches. Visit <http://www.iaumc.org/pages/detail/1273> to learn more about the commission's advocacy for persons with disabilities.
