GOD'S LITTLE HOUSE, MAPLETON

"I had just about lost all hope until I was told about this house. Now I can hope again." *God's Little House* received its first occupants and with them this ministry has come to life with the support of St. John's United Methodist Church in Mapleton.

When a single-parent family with three children was in transition, *God's Little House* provided a place of welcome for them to take shelter. Now the kids play in the park across the street, there are lights in the windows of the house, and the family enjoys cooking out in the backyard.

The *God's Little House* task force is

planning on replacing a damaged piece of sidewalk, remodeling the house's interior, and planting donated hostas around the house to enhance curb appeal.

God's timing was perfect for the church. Just a week before the family moved in, the antiquated furnace was replaced with a new heat-pump furnace and air conditioning unit. The purchase was possible in large part because of the Matthew 25 grant St. John's received in 2010 courtesy of Iowa Conference apportionments.

Pastor Karen Garrison wrote, "Thank you. Your gifts to the United Methodist Church are working in the Northwest District through your generosity."
