Mission is essential to our Christian lives. Whether one is serving in a remote African village or talking about the Good News with neighbors down the street, we are called to share the Word of God with our actions and our voices.

But how do churches and individuals in Middle America express this important calling in meaningful and appropriate ways? This Second Annual Mission Conference, sponsored by the University of Dubuque Theological Seminary, was designed to answer that question. Our guest speakers, Rev. Hunter Farrell of the Presbyterian Church (U.S.A.) and Rev. Phil Thraikill of the United Methodist Church, have dedicated their lives to making mission accessible and understandable. The events, lectures, and conversations you will encounter here are not so much about mission as they are about how to be actively engaged in mission wherever you live.

Pastors, elders, committee members, and church leaders will find a wealth of information available about how to make mission matter in our churches and communities. You are invited to be a part of this event. Register today and join us for a mission conference that is sure to change our attitudes and energize our efforts!
