Stories of Connectional Giving

www.iaumc.org/tyn

Our House Preschool, Davenport, Iowa

For twenty years the Our House Preschool has provided a tuition-free Christian learning experience for underprivileged neighborhood children.

The program encourages the children in the learning process and promotes lifelong learning, which helps lift people out of poverty.

Three congregations in the area operate the school: Asbury United Methodist Church, Progressive Baptist Church, and First Christian Church.

The partnership has been very successful, bringing together people of

different churches to accomplish a shared goal: educating at-risk children.

Recently, the preschool embarked on a renovation project. The newly tiled areas look great! They are easier to clean, and they are encouraging children and staff to keep things organized. New carpet was laid in the play area, and cabinets and counter tops in the kitchen were replaced.

Much of the work and some of the materials were donated. A grant from Southeast District Matthew 25 funds, which is supported with apportionment gifts from local churches across Iowa, also helped make this renovation possible.
