This is a listing of churches that brought or sent a remittance form to the Ingathering and that I received. It may or may not be complete. If you were missed I apologize. Let me know if your church donated kits and/or money and I will make the correction. I know that some churches did not bring their remittance forms with them so their information was not included on the spreadsheet that I used for this report.

Thanks to all the district churches who support the Ingathering by bringing kits and money as well as coming each year to purchase items from the bazaar and the auction. Let's try for even more churches participating in 2020—and for lots more kits and money to come in to help our hungry sisters and brothers here at home and around the world. With the pandemic we are experiencing, our donations are even more crucial. Stay tuned for any changes that we might need to do regarding the Mission Ingathering for November 2020. With the uncertainty of the COVID-19 pandemic, things might need to change in how we do the Ingathering.
